December 11, 2007

Dear Patients and Friends:

My name is Dr. Aileen Trivedi. I took over the dental practice of Dr. James McAnly in September 2007. It has been my pleasure to have met most of you and I am looking forward to meeting the rest of you during the next exciting year.

I am proud to continue the exceptional work that was started by Dr. McAnly, and Dr. Brodie before him. The practice maintains the highest standards of quality, excellence and superior customer service, offering you our most precious gift: *the ability to effectively maintain and improve your overall health and a beautiful smile*. Each and every staff member from the hygienists Melissa and Lynn, to the front desk with Danny and our fantastic assistant Michelle, and our new members of the family Idalmis, Kristy Marie, and Patricia places your care and comfort as their top priority. We believe that when you come into our practice, you should receive individualized, complete care, not "drive-thru" dentistry.

I was born in New Jersey and made Orlando my home at the age of twelve. I graduated from Bishop Moore High School, and then received a B.S. in Microbiology and Immunology from the University of Miami. I attended Boston University for my dental degree and continued on to complete a hospital based General Practice Dental Residency Program. This gave me vast experience in caring for medically compromised patients, particularly Head and Neck cancer survivors. This also gave me the experience needed to manage complex dental cases that involve rebuilding the entire oral system for function and aesthetics.

I have made a commitment to be the best. To better serve my patients I have partaken in numerous continuing education courses. My commitment to continuing education has won me a fellowship nomination from the Academy of General Dentistry to be awarded at a national convention in July 2008. I also remain as an on-site professor and facilitator for Boston University Dental School, an active member of the American Dental Association, the Academy of General Dentistry, the

Central Florida Implant Study Club and the University of Florida Comprehensive Dentistry Study Club. Because of my commitment to Oral Health and the under-privileged in the community I am an executive board member of Dental Care Access Foundation and actively volunteer my services to local dental charities.

Even with all of these accolades, I hold patient care and comfort as the most important mission in my practice. Your dental experience as well as your satisfaction in our office is our goal.

I send out an invitation to you and your family and loved ones to visit us. I am available at anytime and I am looking forward to serving you and your family and friends for many years to come.

Give us the opportunity to pamper you with the fine care at Fine Dentistry of Downtown Orlando.

Sincerely,

A handwritten signature in black ink, appearing to read 'A. Trivedi', with a stylized flourish at the end.

Dr. Aileen Trivedi
